EXECUTIVE REPORT

GLOBALPHARMAIP.COM

The Global Pharma IP Forum is a private annual meeting at the London Stock Exchange focused on latest legal developments affecting pharma and biotech companies and provided a unique opportunity for the delegates to network with leading in-house councils, key industry regulators, litigators, experienced consultants and expert patent attorneys from across globe, allowing them to discuss the current practices and remain competitive in today's rapidly changing market.

The event has welcomed over 120 C-level attendees representing the leading pharma and biotech companies as well as the top legal firms specialising in Life Sciences. The topics discussed included updates on UPC and future legal strategies, European perspective on preliminary injunctions, SPCs, formulating the second medical use patent strategies, trademarks in pharmaceuticals, recent development in pharma case laws in Japan.
